## Biocon ranked among top ten global biotech employers

TIMES NEWS NETWORK

**Bengaluru:** Biocon has been ranked among the world's top ten employers in biotechnology by Science magazine. The company has moved up to No.9 in the 'Science 2016 Top Employer' ranking, from No. 13 last year.

Biocon is the only company from Asia to feature on this prestigious list.

The ranking is based on a web-based survey of nearly 6,000 respondents. Science is published by The American Association for the Advancement of Science (AAAS), the world's largest general scientific society.

**ONLY FIRM FROM ASIA**

Biocon's ranking is based on key attributes such as 'innovative leader in the industry', 'is socially responsible' and 'has a clear vision.' Biocon CMD **Kiran Mazumdar-Shaw** said, "This is a recognition of Biocon's high quality talent aligned with the vision of innovation led enterprise that is also socially responsible. It is a proud moment for all of us and a great motivation to keep pushing the boundaries to provide affordable access to therapies that can impact global health."

The ranking was led by US-based Regeneron Pharmaceuticals, and was followed by Novo Nordisk (Denmark), Moderna Therapeutics (US), and Eli Lilly (US).
